WORLD OF RADIO HITLIST
https://www.w4uvh.net/hitlist.htm

Hi Glenn, My latest Hitlist update. (With special thanks this time to Alexander Miatlikov, Dnipro in Ukraine, for providing a large number of updates/corrections)

1) Austria – TransWorld Radio: Relocated entries under Slovakia (where headquarters are now located) (Thanks to Alexander Miatlikov)
2) Azerbaijan – R Baku: Updated entry from "R Baku" to "International R" (also known as V of Azerbaijan) to reflect current name. Added link to online stream. (Thanks to Alexander Miatlikov)
3) Belarus – R Belarus: Updated links to home page and to live webstream. (Thanks to Alexander Miatlikov)
4) Cyprus – R Bayrak Int: Updated link live stream (Thanks to Alexander Miatlikov) and deleted link to non-existent programme page.
5) Finland –R Blacksmith Knoll: Added entry for RSBK (Thanks to tip by Kari Kallio in WOR iog mail list)
6) Germany – HCJB Deutschland: Corrected station name (Thanks to Alexander Miatlikov) and updated links to home page and frequencies.
7) Germany – Hamburger Lokalradio: Deleted entry as station seems to have closed and no web pages found. (Thanks to Alexander Miatlikov)
8) Germany – Shortwave Service: Updated link to home page (now linking to Milling Broadcast services) (Thanks to Alexander Miatlikov) and added additional Facebook link
9) Nigeria – V of Nigeria: Updated link to a usable live stream (thanks to Jean-Michel AUBIER in WOR iog mail list and to Alexander Miatlikov)
10) Slovakia – TransWorld Radio: Relocated entries from Austria (headquarters now located in Slovakia) (Thanks to Alexander Miatlikov)
11) Sweden – SR R Sweden: Updated link to home page (Thanks to Alexander Miatlikov)
12) Switzerland: Corrected spelling of Switzerland (3 entries). (Thanks to Alexander Miatlikov)
13) Syria – R Damascus: Updated link to home page (however is shown as "under construction) (with thanks to Alexander Miatlikov)
14) Taiwan – RTI: Updated links to navigate to new domain name (Thanks to Tanino Marabello, WOR iog mail list and Hansjoerg Biener)
15) Tajikistan – V of Tajikistan: Updated entry to home page (Thanks to Alexander Miatlikov) and added links to webstream and Facebook page
16) Thailand – R Thailand WS: Removed link to non-existent home page (Thanks to Alexander Miatlikov) and updated link to FM88 English live stream
17) Ukraine – R Ukraine Int: Updated all links to newer ukr.radio rather than older ncru.gov.uk (Thanks to Alexander Miatlikov)
18) USA – RFE/RL: Deleted link to non-existent "How to Listen" page (Thanks to Alexander Miatlikov) and added link to Facebook page
19) USA – RFA: Deleted link to non-existent "Frequencies" page (Thanks to Alexander Miatlikov) and added link to Facebook page
20) USA – Wavescan: Moved entry for WRMI Wavescan archive and relisted under WRMI
21) USA – WJHR: Added entry for WJHR (Thanks to WRTH via Glenn Hauser)

The next update is scheduled for August
Best wishes and 73, Alan Roe, Teddington, UK

** BENIN. 1476 kHz, Fri July 4 at 0430, and still 0452 UT, JBA carrier

is the only trace of trans-Atlantic MWDX, surely TWR Parakou. Seems a bit late; Mark Pettifor in IN, and Tim Tromp in MI say it signs on at *0313. No, sunrise not until 0535 UT and varies little during the year at 9+ degrees north. MWlist says morning broadcasts are M-F only, 0320-0430 in Hausa, 0430-0550 in Igbo. Presumably could hear TWR IS at least around start, change and stop times. This is the only 1476 TA of high power, 150/200 kW except for UAE 200 kW, well into dayside. TWR on 1566 which we used to get better in mornings, is still evenings only, daytime for us (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, UT Tue July 8 at 0151, RNB in English with basic propagation info on MW/GW coverage vs up to 2000 km at night; 0153 already closing credits, outro ID as RNB IS, 0154 Spanish with heavy Braccent (Glenn Hauser, OK, WOR)

** CANADA [and non]. Another huge sporadic E FM DX opening July 4! Already in progress when I join at 1507 UT, constantly until I suspend for lunch and R&R at 1818 and just a little more almost an hour later. At least from: NY, ON, MI, ND, MB, SK. Will take another day at least to fully research and report, approx. 92 discrete log entries including repeats of same stations. DXMAP showed MUF spikes around 150 MHz, and multiple paths across central/eastern US almost solid red! A major nexus around Chicago but does not account for my western Canada catches, Teaser: starts with Fox Sports Radio on 87.7+ MHz, which WTFDA FM DB shows has to be WQSE-LD in Syracuse NY, 2.75 kW, -61 m = below average terrain (Glenn Hauser, OK, WOR)

** CANADA [and non]. Another huge sporadic E FM DX opening July 4! Already in progress when I join at 1507 UT. DXMAP showed MUF spikes around 150 MHz, and multiple paths across central/eastern US almost solid red! A major nexus around Chicago but does not account for my western Canada catches.

I`m DXing the old-fashioned way which I find quite enjoyable and sufficient. All logs are on my own receiver in real time; no mass recording of entire band to sift thru later, nor any recording; the only thing I wish I had is RDS, lacking from my 2004 Nissan Sentra caradio. I recently tried to get some RDS by handling the DX-398 in the car, but it slipped and broke the antenna! More or less repaired now.

No internet access during the sessions, but plenty later as I research. No antenna manipulation, as it`s just the vertical on the fender - and of course, minimal antenna gain. I scribble copious notes and can read most of them later. All times and dates strictly UT. This session is in a way *too much* DX - almost all frequencies have at least two DX stations vying for capture, back and forth, and/or spoiler fringers. Log items under a single heading may well concern more than one station, can`t tell them apart, marked CCI. How do these affect my totals? Altho I was once a Statistics Editor, I no longer care, which frees me from competition with anyone or myself. I am more interested in quality than quantity of logs : each one a potential learning experience. PTA = probable target area. Distances at end of each item are km/statute miles, city-to-city, so approx., not site-to-site, from distancefromto.net To save time & trouble, I`ll not repeat those for same stations further down.

Friday July 4, 2025:

87.7+ at 1507 start: sports talk about football in English: obviously one of those LP TV stations pretending to be FM radio, and probably really on 87.74, 87.75 or 87.76 MHz, but the caradio of course cannot tune that finely. On a hunch I compare it to my local 1640 KZLS and find it matches, but not synch. Unlike the `real` FM stations, this one never has any QRM, and spot chex later find it still there for

quite a while, but I never hear an ID or local ads. WTFDA FMDB has only 14 -LD stations on ``87.7`` of which only one is sports, and Fox, and in the PTA as soon becomes evident. In fact there are no others in NE USA except for NYC:
WQSE-LD Syracuse NY 2.75 kW -65 m = BELOW average terrain making this catch all the sweeter. Its slogan is supposedly `Fox Sports 92.5 & 1490``, i.e. WOLF. Since they have a real FM on 92.5, not clear why they need 87.7+. I wonder what video one could see 4.5 MHz lower? 1993/1239

{After an earlier post of this full report on the WTFDA FM list, a reply:
``Glenn, It's pronounced "Honey - Oy". It would only mention that at ID time, otherwise covers the Rochester market.

Typo, I think, WOLF is 92.1 not 92.5. I had it today overriding WYSL 92.1 with a solid HD signal from the Syracuse area. Good tropo to the east today from here. WCNY 91.3 Syracuse with a solid HD signal, usually blocked by WXXO 91.5 in Rochester. WXXI is now on 105.9. They felt that WXXI was more of a news brand when they acquired 105.9, so WXXO is now the classical. WXXI 1370 still exists, but I bet they unload it at some point. It's probably not worth much to sell, so I expect more religious saturation.

I also had Thunder Country 93.5 as a last gasp in the opening around 1830z. Actually the last gasp was Sidney MT 93.1. A relog, but maybe my furthest single hop FM signal. I think your logic on the NY stations is sound.

My report for July 4 will include short hop KY, long hop MT, but mostly TN LA TX OK KS MO MN. I recorded as I tuned around. Have to review that. 5 hours of recordings, 2 of which were 90.9 recorded while I was attending an anti-fuehrer protest in Batavia. Jim Renfrew, Clarendon NY``}

93.1 at 1516: ``93-Q.com``; CCI. Fortune Valley Golf Club and 5 others in NY for a single ticket? Big Lots ad, Oswego; McGuire? Automotive. Oswego is near Syracuse on Lake Ontario. And the only full power non-translator in NY on 93.1 is: WNTQ, Syracuse, 97.0 kW, 201 m, 93 Q or 93Q. Fortune Valley Golf Club gets no hits in NY or elsewhere tho there are Fortune Valley otherthings along the Hudson and in Colorado. And a Fortune something in Tulsa but this is not 92.9! 1993/1239

92.9 at 1521: ad mentions Ithaca, Canandaigua, Home Depot special buys, `hard` ice tea, i.e. with alcohol; Buffalo, Niagara Falls; 1524 Misty City Music Festival; ``Buffalo`s Real Rock, 92-9 WBUF``. Ithaca is SSW of Syracuse, Canandaigua WSW of Syracuse, further from Buffalo. N.F. of course is near Buffalo. Is there another 92.9 besides WBUF? Not really, a religious translator in Rochester is closest. 1775/1103

94.1 at 1527: classical, $, recognized as ``Scheherazade`` by Rimsky-Korsakov, a tremendously beautiful piece. Only 3 USA format hits, translators or lowpower in OR, WA, WY. I bet it`s CBC! It`s Undefined, Variety, CBC Music, but no mention of classical! CBL-FM Toronto 38 kW, 420 m. 1764/1096

94.5 at 1528: hard rock, $; 1531 Y-94, iHeart radio app plug. Hits in slogan field only as Y 94 with a space, altho Y94 elsewhere for this entry only in the PTA:
WYYY Syracuse NY 100 kW, 198 m, format AC.

91.5 at 1534: $ classical, CCI with KSNS KS mono. Lots of those in USA, but in NY only two: WXXO Rochester 45 kW, 134 m, a.k.a. WXXI-FM [?] in PTA, and WSQX-FM Binghamton 3.5 kW, 116 m with Classical 24. Surely Rochester. How about ON? Two CBCs in Orillia and Ottawa, but

R1, not Music. 1882/1169 {see Renfrew comment above}

92.9 at 1541: Buffalo, siding & roofing ad, CCI, so WBUF again.

92.9 at 1543: ``Mix 92.9`` CCI to WBUF. Only two full-powers in NAm: WJXA Nashville, ``Mix 92-9`` with a dash, and KYYY Bismarck ND, Mix ``92.9`` with the point: and based on later logs, ND is also propagating! 100 kW, 301 m, AC 1182/735

92.9 at 1546: CCI to Bismarck, ``Star 92.9`` - not San Angelo TX but: WEZF Burlington VT, 46 kW, 828 m, Hot AC -- good! Vermont rare to here 2262/1405

94.5 at 1553: WYYY again: ads for Burdicks Family Dealerships, iHeart, in western NY, Syracuse; CCI. 1554, Y94FM.com, market 92. 1555, claude.com, AI Asst, Y94.

95.1 at 1556: Stellar Roofing in western NY. Only NY non-translator is WAIO Honeoye Falls, 50 kW, 146 m. Honeoye Falls is just S of Rochester; how pronounced? 1877/1166 {see Renfrew reply above}

95.1 at 1558: WSTX Mackinaw City ID, CCI, ``Rhinestone Cowboy`` Or so I thought: the real WSTX-FM is on 100.3 in Christiansted VI, as in St Croix!

So now I have to look thru the 213 entries for USA in the WTFDA DB, for similar calls or location or station relayed: NO obvious hits among:
WSSX-FM CHARLESTON SC
WXFX   PRATTVILLE AL
WFKS   MELBOURNE FL
WSGX-LP EAST BATON ROUGE LA
or maybe 100.3 in VI ID appeared in same city?
WJKC   CHRISTIANSTED VI

But looking at 3 listings for Mackinaw City MI we bingo!
WSBX 94.5 MACKINAW CITY MI 50 kW 110 m CLASSIC HITS BRIDGE FM - EVERYTHING CLASSIC // WUPF 95.1 -- so it`s WUPF I am hearing? But it`s on 107.3!
WUPF 107.3 POWERS MI 50.0 kW 130.0 m CLASSIC ROCK EAGLE 107.3 FM

So then I look at all the 95.1s in MI, really bingo now!
WUPN 95.1 PARADISE MI 25.0 kW 71.0 m CLASSIC HITS BRIDGE FM - EVERYTHING CLASSIC // WSBX 94.5
And there is also a WUPN-FM1 on 95.1, 0.25 kW in Sault Ste Marie MI. How convoluted. UPN no doubt alludes to Upper Peninsula. I was not getting relay relationships since not in the RELAY OF field, but rather in the REMARX - and see further logs of BRIDGE FM: 1558/968

94.5 at 1600: iHeart Radio, Y94FM.com, so WYYY again

95.1 at 1601: YL news about Toronto Argonauts, CCI, CK News today podcast; only fit is:
CKUE-FM 95.1 CHATHAM ON 42.0 kW 133.0 m Great Hits & Real Classics on Co0L-FM 95.1 & 100.7 COOL FM 1501/933

95.1 at 1602: Kool-FM, or rather Cool-FM as above, CKUE. BTW, no sign yet of the Enid CP on 95.1, KOKJ-LP; nor OG&E`s Xmasmx Part 15 downtown

95.3 at 1604: $ rock CCI overcoming KOKC $ talk translator

95.1 at 1605: talk about rockets, and how the word mastodon derives from a root meaning woman`s breast because of similar appearance --- really???

95.1 at 1606: CCI, Cool FM as above

95.1 at 1609: ``95-1 Bridge FM``, CCI, so it`s WUPN in MI again, as above

95.1 at 1611, Cool 80`s launch? on Cool FM, so CKUE again

94.5 at 1614, ad for Big Lots in Oswego, so WYYY again.

94.5 at 1614: CCI Scott Joplin music: that could be WNED-FM Buffalo 94 kW, 220.5 m Classical 1775/1103

94.5 at 1615: central New York mentioned, does that mean Syracuse?

94.1 at 1617: classical, so CBL-FM again

92.9 at 1621: Home Depot, CCI, Buffalo ad, so WBUF again

87.7 at 1623: sports talk still, so WQSE-LD Syracuse again

1625-1634 I take a break, to start PBS video recording for a sesquihour, so I don`t miss GZero World and Closer to Truth

106.1 at 1635: ad with 306 AC so it`s Saskatchewan, CCI; 1636 top US dollar trade-ins at Centrack? Ford; 1637 Estevan weather, discover Estevan, 106-1:
CKSE-FM 106.1 Estevan SK 100/43 kW, 131.8 m Country 106.1 1477/918

98.3 at 1640: classical CCI to semi-local C&W. In USA, only translators or low power, except WHRF in VA. Not a single Canadian listed with Classical format, but surely CBC Music:
CBW-FM 98.3 WINNIPEG MB 160.0! kW, 223 m VARIETY CBC MUSIC WINNIPEG 1503/934

97.5 at 1642: rock, CCI with OK

97.1 at 1643: talk, ACI from local 96.9

96.5 at 1644: CCI, maybe beyond the two Okies

94.1 at 1647: $ classical, CBL-FM again

92.1 at 1648: hard rock, YL DJ, from USA; $ so not KFXI OK which is mono, country

87.7+ at 1651: still mono sports talk // 1640 KZLS, so WQSE-LD

104.1 at 1653: CCI to OKC! KMGL. If we`re still in western NY PTA:
WHTT-FM Buffalo 50 kW 118 m; or Ontario? CICZ-FM Midland 20 kW, 236 m 1775/1103

100.3 at 1654: $ soft rock; 1655 CJMJ Ottawa ID:
CJMJ-FM Ottawa ON, 100 kW, 291 m AC Move 100.3 2108/1310

99.5 at 1656: $ talk, USA

99.5 at 1656: ``CK-105`` - CCI. Canadian? No matches. Closest USA match is, and close to Syracuse:
WTKW 99.5 BRIDGEPORT NY 5.7 kw 103.0m CLASSIC ROCK TK 99 & TK 105 //WTKV 105.5 2010/1249

99.1 at 1657: $ C&W, CCI rock. 1700 ``K---, Dickinson`` ID, iHeart:
KCAD 99.1 DICKINSON ND 100.0 kW 122.0 m 99.1FM KCAD (promotional event) @ 4BEARS CASINO | 99.1 KCAD Title & Artist COUNTRY 1235/767

100.3 at 1701: just missed ID; still CJMJ as above?

98.3 at 1702: $ news ``in Saskatchewan``, CCI C&W:
CJMK-FM 98.3 SASKATOON SK 100.0 kW 161.0 m Adult Hits CLASSIC HITS 98 COOL FM 1881/1169
But there is one other in SK, only 53 W vertical only from a place heard elsewhere:
CHQX-FM-2 relay of:CHQX-FM 101.5 98.3 LA RONGE SK 11.7m CLASSIC HITS BEACH RADIO 2157/1340

98.3 at 1703: ``America`s listening to Fox 'News'``. Unfortunately, WTFDA FMDB does not cover news/network affiliations, unlike the NRC AM Log on paper. It does show two translators in SC and MT with Fox Sports, but that does not correlate with `news` likely on too many stations to guess at.

98.3 at 1704: Canadian news, Calgary Stampede, CBC news outro, ``In Concert`` classical promo, Sunday at 11/11:30 in Newfoundland on CBC Music. 1705 CBC program `About Time`. Surely still CBW-FM Winnipeg 1503/934

88.1 at 1709: French Canadian vs two Okies. Surely along with 98.3, CBC in Winnipeg which is *not* CBWF, but CKSB-10-FM, relay of CKSB 1050, 100 KW, 223 m, Ici Radio-Canada Première. Originally a private station. Several more times below 1503/934

90.3 at 1711: $ in *native* language, CCI. 1713 La Ronge SK events in English; A&W cheeseburger ad! in native, Cree? CCI C&W. Only:
CJLR-FM-4 relay of:CJLR-FM 89.9 90.3 REGINA SK 43.0 kW 190.0 m MBC-FM Country ABORIGINAL 1653/1027
The original CJLR-FM on 89.9 in La Ronge, way up north at 55+ degrees, is *only* 216 watts and has many even lower power relays including six also on 89.9.

91.5 at 1715: CCI both mono with KSNS KS: ``tender-hearted`` a quiz word, native lang? There are no 91.5s in SK, so how about MB? One:
CKLQ-FM Brandon 100 kW 325.6 m, Q Country, not specified as mono; no Aborignal anywhere; lots of low-powers 1505/935

92.1 at 1720: rock, CCI, $ so not KFXI OK fringer country mono

92.1 at 1725: CHCH ID in passing - an easy one for a change? NOT. No such call among dozens of stations including relay sources. Nor anything fonetikaly similar. CHCH applies only to a TV station in Hamilton ON: possibly referred to. Near Hamilton? A *very* long shot, but this one is close to Hamilton:
CKPC-FM 92.1 BRANTFORD ON 80.0 kW 230.0 m SOFT AC LITE 92.1 1677/1042

91.5 at 1727: CCI, Labrador mentioned and a .ca - too many possibilities, but maybe still CKLQ FM 100 kW Brandon MB; or maybe more likely to talk about Labrador would be a CBC station such as CBO-FM Ottawa 84 kW, 323 m 2108/1310

91.5 at 1728: CCI in French, ``positive``. Only 5 in Canada, all CBC, in NB, NS, QC, probably too far. Of course I could be getting double hop and never know it

91.5 at 1730: mention claesson-edwards.com as in previous DX session June 26:
``91.5 at 1651, mono, ad for Clawson-Edwards.com audio processing. No hits, but this reaches something in Antioch, California:
https://store.claessonedwards.com/aboutus.asp
It`s hard to tell on 91.5 whether I am getting KSNS KS, now Smile FM,

or CCI DX`` Now I am wondering if it were just KSNS both times somehow. 118/73

87.7+ at 1730: still sports talk, no CCI, WQSE-LD Syracuse

94.1 at 1731: $ classical, CBL-FM

94.3 at 1733: CCI, maybe something other than usual KS/OK weakies

95.3 at 1735: deadair in mono fading, vs KOKC $tereo talk. Probably incomplete, but all 95.3s in FMDB as mono are in Canada, all very low power and/or too far. Maybe something local. Again at 1757

95.3 at 1736: $ C&W CCI to KOKC $ talk

96.5 at 1737: weather by YL, ``96.5 ---EN``. Only 96.5 with partial call EN is
W243EN relay of:WBRN 1460 96.5 BIG RAPIDS MI 0.25 kW NEWSRADIO 1460-107.7 WBRN. Unlikely she would utter a translator call

96.7 at 1738: $, Virgin Plus, Pembroke ad, Pembroke Regional Hospital, raffle? ``Peer Country`` or Pure? Here it is:
CHVR-FM 96.7 PEMBROKE ON 100.0 kW 157.5 m STAR 96-7 PEMBROKE'S PURE COUNTRY 96.7 2023/1257

100.7 at 1742: $ rock vs heavy ACI from 100.9 Enid and 100.5 OKC

101.5 at 1744: $ classical, ``Sheherazade`` again, so CBC delayed. Perfect reception until 1747 rock CCI. Like 94.1 Toronto 2+ hours earlier, so this must be in MDT/CST zone. Only this one fits in SK or AB:
CBK-FM-2 relay of:CBK-FM 96.9 101.5 WARMLEY SK 100.0 kW 301.3 m VARIETY CBC MUSIC REGINA 2096/1303

88.1 at 1748: French Canadian CCI again to Okies, so Winnipeg

89.5 at 1749: $ low-key talk about land and water rights, visited reservations, we are starving? boarding schools. The only Canadian Aboriginal format is:
CKWG-FM Wahgoshig Lake ON, 17 watts. Only SK station is 50 watts country. No MB station. ON? Maybe a topic on CBC Radio One Sudbury via CBSM-FM Sault Ste Marie ON, 46 kW, 116.0 m in a PTA earlier. But listed mono.

94.1 at 1753: something about Saskatchewan, and cruise? weather. $ CCI; and 1753 Yorkton weather, Cruise ads and news, rock CCI:
CFGW-FM 94.1 YORKTON SK 100.0 kW 176.0 m VARIETY HITS CRUZ FM 1687/1049

94.1 at 1756: Swift Current, AC 306 ad and so:
CIMG-FM 94.1 SWIFT CURRENT SK 100.0/43.0 151.3 m COUNTRY 94.1 1737/1079

96.7 at 1757: $ C&W

97.3 at 1758: French Canadian, heavy accent. The only explicitly FFC in range is:
CBON-FM-19 relay of:CBON-FM 98.1 97.3 NIPIGON ON 2.0 kW 258.0 m French NEWS/TALK ICI RADIO-CANADA PREMIERE 1605/998
But is CKUA always in English?
CKUA-FM-3 relay of:CKUA-FM 94.9 97.3 MEDICINE HAT AB 100.0/43.0 kW 219.5 m VARIETY CKUA RADIO FOUNDATION
Or how about this in PTA?
CIDM-FM relay of:CINC-FM 96.3 97.3 DAUPHIN MB 1.65 kW 25.1 m COUNTRY FIRST NATIONS RADIO Aboriginal

92.1 at 1800: ``Lakota`s, Plain 92`` sounds like, and ``Harvard Media radio station`` by YL in $. Besides a translator in Rugby ND, there is one full-power 17 kW in Dickinson, KZRX already logged; and one in SD, 100 kW KORN, neither having anything to do with Lakota, plain/plane, or Harvard. So to broader searching: there is a Harvard Media HQ in Regina, nothing to do with Cambridge? including radio, several stations such as PLAY 92.1, CHMX FM! That`s it:
CHMX-FM 92.1 REGINA SK 100.0 kW 190.0 m Adult Hits 90'S HITS PLAY 92.1
I would not have reached this via FMDB unless I heard PLAY correctly. Again at 1806 $ rock ``Play 92`` 1653/1027

94.9 at 1802: $ news of USA, fades, ad for O`Reilly auto parts; 1803 ``9 -- The too`` or something like that

96.7 at 1805: $ C&W like at 1757

92.7 at 1808: $ C&W, ACI, ``Pure Country``. In entire N America there are three, all in Canada; never mind the LP relay in BC, or the one in London ON outside the PTA by now, but:
CHBD-FM 92.7 REGINA SK 100.0/22.0 kW 164.0 m REGINA'S PURE COUNTRY 92.7 1653/1027

92.9 at 1809: $ undermodulated, ``Mix -`` something, CCI, mention Flin Flon; iHeart Radio music festival

92.9 at 1811: weather forecasts including La Ronge, CCI Bismarck as below; 1813 YL in English on a native event, conference in La Ronge, Flin Flon ad, undermodulated. 1814 Power mop?, Turtle Creek events; 1816 MBC sports, CCI. MBC makes it this, only 1.54 kW:
CJLR-FM-5 relay of:CJLR-FM 89.9 92.9 YORKTON SK 1.54 kW 66.0 m ABORIGINAL MBC FM
I don`t find a Turtle Creek in Canada, but leads to MI, PA, and Dallas TX 1687/1049

92.9 at 1811: Bismarck ad, AC 701, CCI, 4BearsCasino.com which is near New Town ND which is not too far from Bismarck; 1815 algo is next to Dakota zoo:
KYYY 92.9 BISMARCK ND 100.0 kW 301.0 m ADULT CONTEMPORARY MIX 92.9 1182/735

88.1 at 1818: French Canadian CCI yet again, last check before I suspend for lunch and R&R.

Resume at 1914: 92.1 $ rap, fade, no more skip

93.1 at 1915: Showalter`s which is around KHMY Pratt KS fringer and 93.5, Thunder Country which is KKDT Burnett KS fringer
(Glenn Hauser, Enid OK, WOR)

** CHINA [and non]. 7325, July 7 at 1456, JBA carrier, only BC sig on band besides 7490 WWCR about to close, NZ if on 7440 inaudible. Aoki & EiBi show CRI in many languages from many sites, but at 1430-1457 Filipino/Tagalog via Nanning 954; and 1500-1557 English to SE Asia via Beijing 572 site, probably the latter already (Glenn Hauser, OK, WOR)

** CUBA. 9790, July 4 at 0349, S9+25 of suppressed/distorted modulation in unreadble English, CRI relay as usual. Something`s always wrong at RadioCuba. Also scheduled for another hour at 04 in Cantonese (Glenn Hauser, OK, WOR)

** CUBA. 6000, July 4 at 0356, S9+20/25 of suptorted music, hardly matters whether English or Spanish. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 6000, July 7 at 0527, S9+20/30 of dead air, no doubt RHC where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA. 5025, July 8 at 0214, R. Rebelde is off; when on, unpredictably, has seemed quite weak and Wolfgang Bueschel agrees must be on much reduced power.

4765, July 8 at 0215, however, R. Progreso is on at S9+30/40 with music (Glenn Hauser, OK, WOR)

** CUBA. 9790, July 9 at 0625, S9+30 of dead air. Must be the Voice of Silent China relay, forgot to turn off useless transmitter by 0500 (Glenn Hauser, OK, WOR)

** CUBA. 6000, July 9 at 0637, S9/+5 JBM, English? Must be RHC where something`s always wrong; cf 9790 also on late. So from same site? (Glenn Hauser, OK, WOR)

** CUBA. 15230, July 9 at 1429, S5/S9 suptorted, RHC where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, 9565, Mon July 7 at 2203, no signals from R. Martí but had been on earlier, after weekend break (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605 & 11930, July 8 at 1512, R. Martí VG into Florida SDR, but 11860 is off. Lima, Perú SDR is getting 13605 well but not 11930. It`s the closest Kiwi active in S America, no Bonaire which is very sporadic. Any in Colombia rarely appear. At 1717, all three RMs are on, but JBA into Maryland SDR; yet WWCR is blasting in 12160 at S9+30 (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, July 9 at 1433, R. Martí active on all three via Grimesland (Glenn Hauser, OK, WOR)

** CUBA [non]. R. Martí: see also U S A

** EAST TURKISTAN. 15445 & 15665, July 4 at 0423, Russian // at S7/S9, CRI as scheduled, via Kashgar and Urumqi respectively toward Europe (Glenn Hauser, OK, WOR)

** GERMANY [and non]. 9670, Sun July 6 at 2300-2400 is time for Texas Radio SW to North America via Channel 292. But no signal into Georgia SDR, so I resort to UTwente where it`s S5/S9 but with very deep fadedowns to almost nothing. Albert Collins music this time. `YROT` theme starts it, intro by YL voice. 2312 blues guitar. 2334 ID and QSL offer, more music, until covered by BBC at *2358, on earlier than necessary. Not in Aoki but EiBi: BBC via UZBEKISTAN at 00-02 making 9670 useless for C292 during that bihour+ (Glenn Hauser, OK, WOR)

** INTERNATIONAL VACUUM [and non]. `Stardate` on WBBM 780, July 9 at 0640 UT:

``Cosmic Lightning
July 9, 2025 | Cosmic Rays, Earth's Atmosphere, Weather and Atmospheric Phenomena | Physics, Science
https://stardate.org/podcast/2025-07-09

Thunderstorms generate what may be nature’s most impressive displays: lightning. And there’s plenty of it; lightning strikes Earth millions of times every day.

Although lightning is common, it’s also mysterious. The electric fields inside clouds don’t appear to be strong enough to power lightning. So for the past 90 years, scientists have pondered whether

it might have a cosmic origin – cosmic rays – particles that ram into Earth's atmosphere at almost the speed of light. Many of them come from the Sun. But the most powerful come from exploding stars, the gas around black holes, and other powerful objects in deep space.

When a cosmic-ray particle hits an atom or molecule in the upper atmosphere, it creates a shower of other particles. And it's these particles that might then zip through clouds, creating lightning.

A study published earlier this year seems to affirm this idea. Scientists studied a thunderstorm over New Mexico with a sophisticated array of radio antennas. They traced more than 300 strikes from beginning to end, at intervals of less than a thousandth of a second.

Among other things, the radio waves revealed that the bolts weren't moving the way they should if they'd been sparked by the clouds themselves. Instead, the lightning seemed to be triggered by something coming from beyond Earth: cosmic rays.

Script by Damond Benningfield`` (Glenn Hauser, OK, WOR)

** ITALY. 918 kHz: since WOR was here instead of 1323, Sunday at 1900, I wonder if 918 has replaced 1323 thruout? AFAIK, 918 had not been used for over a year. NEXUS sked still shows 1323 starting at 1800 UT; at 1610 July 7, neither is on into nearby Noale SDR. By 1848 it`s timed out but one of the Parmas *is* getting English religion on 918, also JBA on 1323, not 207 (Glenn Hauser, OK, WOR)

** ITALY. 918 kHz, July 9 at 2126, -15 Hz into Noale SDR, and S9+22 signal but undermodulated, can`t be sure if it be IRRS SW via AM Italia, and nothing on 1323 scheduled until 2300* but 918 may have replaced it (Glenn Hauser, OK, WOR)

** MADAGASCAR. 13790, July 4 at 0428, S9+20/30 of BBC Somali relay, M-F at 0400-0430, the SSOB (Glenn Hauser, OK, WOR)

** MEXICO. 580, July 5 at 0648, Spanish under C2CAM on WIBW Topeka, mentioning Piedras Negras. So it`s XELRDA, current call for La Rancherita Del Aire, truly ``la estación sin fronteras`` in Coahuila next to Tejas. This was originally XEMU but with same slogan. These two and Enid are close to colinear, which makes it difficult if not impossible to null one or the other (Glenn Hauser, OK, WOR)

** NEW ZEALAND [and non]. 9700 & 11725, July 5 at 0632, RNZP with Saturday night music show, again on two frequencies contrary to sked. Propagation at higher latitudes degraded, but 11725 is VG, the OSOB, and 9700 SSOB except for UStations, but VANUATU 9960 also audible VP (Glenn Hauser, OK, WOR)

** NEW ZEALAND [and non]. 11725, July 6 at 0625, RNZP is VG as always, but not // on 9700 for a change, only a JBA carrier there. Other two sked on 9700 at this hour are Romania in German, and Algeria, blown away whenever NZ be on. Of course, if both those be on, they blow away each other (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 15720, July 7 at 0525, RNZP in English, S9/+25, the SSOB and almost the OSOB > 15770 WRMI. NZ not on 19m at this hour in a long time, but this is their favorite frequency; instead of 17675, maybe due to lower winter daytime MUF? Not on any second channel now, 13690, 11725 or 9700. But at 0602 is on 11725 only. Own sked still claims 17675 at 2059-0558, with 15720 only at
1955/1959-2058
(Glenn Hauser, OK, WOR)

** NEW ZEALAND. 17675, July 7 at 2159, JBA carrier so RNZP must be on

scheduled frequency, but will shift to 15720 like yesterday before 0559? (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 17675, July 8 at 0435, 0458, 0508, 0528 chex into KFS California remote, RNZP still here and not on 15720 as yesterday (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, July 4 at 0630, JBA signal here, not earlier, sounds like Josiah, Station YHWH (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, July 6 at 0622, YHWH is JBA. Josiah has been running really late lately; of course that`s before local midnight if in the PDT/MST zone (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680 kHz, July 9 at 2010 UT, Virtual DJ Radio still running and audible almost noise-free peaking around the intersexion of S Van Buren and W Owen K Garriott in Enid. Is pirate relay of an internet `station` as explained originally.

95.5 MHz, July 9 at 2015 UT, unID pirate/part 15 very weak signal with pop music and long pauses, somewhat undermod but $tereo pilot on, peaking around intersexion of S Cleveland and W OK Garriott in Enid, still going, even less range than 1680 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 87.9, July 5 at 1800 UT, dead air in $tereo in my neighborhood, instead of some more sporadic E FM DX not quite reaching here. I`m still working on my July 4 logs, hope ready for my next report (Glenn Hauser, Enid, WOR)

** SOUTH CAROLINA [non]. TOMBS still on WTWW, WRMI, WBCQ: see USA

** SPAIN. 17715 S9+20/30, 15500 S9+20/25, 15520 S9/+15, 15390 S7/S9, into Georgia SDR, Fri July 4 at 2203, token English from SNR, news including Pride march, anniversary of same-sex marriage in Spain; 2206 contact info; 2207 interview about an exhibition at a costume museum, ``Raíces`` (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+10/20 // 15500 S9+10/20 too but 17715 sounds stronger and less noisy even tho for SAm not NAm, while 15520 is S8/9 and 15390 JBA, all direct, Monday July 7 at 2200 for token English from SNR. Lead preview, 9 days of festivities including RunningoftheBulls at Pamplona; big demonstration from 250K to 1 Megaperson about LGBTIQ [sic] rights and anniversary of same-sex marriage legalization in Spain: which REE is really making a big deal of, gay-friendly. I can`t imagine VOT e.g. doing that. 2210 interview an author about being an immigrant in Madrid which she refers to as `her` (Glenn Hauser, OK, WOR)

** SPAIN. 15520, Wed July 9 at 2200, token English from SNR, better here and 17715 than 15520 for NAm since I am unusually checking via UTwente, which is offbeam for all of them; also 15390 for Africa. 2207 feature after news is interview about forest fires as the season has now begun, causes and prevention, someone in English with a heavy accent (Glenn Hauser, OK, WOR)

** SWAZILAND. 9585, Mon July 7 at 1453, S3/S4 TWR IS and IDs in English as Eswátini. At this hour likely longpath across Indian & Pacific Oceans. Aoki shows M-F 1420-1443 in Lom, and 1455-1525 in Mal. While EiBi M-F 1400-1443 in LO to MOZ, 1455-1525 in MSY to MDG. That`s Lomwe/Ngulu spoken by a sesquimegaperson in Mozambique, and Malagasy spoken by 16M (Glenn Hauser, OK, WOR)

** TURKEY. 11785, July 4 at 2202, no signal from VOT English into UTwente, nor accidentalternate 9875, nor a couple chex later in the hour. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 6165 & 7275, July 5 at 0344, VOT English missing both frequencies now into UTwente, like the 22 UT July 4 was AWOL from 11785. What`s not next? Something`s always erroneous at Emirler. But at 1540 check, both 9765 in Farsi and 11765 in ``pbt/pbu`` are on. What in the world? From HFCC zip files, language key is exhaustive, no doubt including many obscure tongues never on radio, but: Pbt Southern Pashto, Pbu Northern Pashto (Glenn Hauser, OK, WOR)

** TURKEY. 11785.006-, July 5 at *2202, VOT cuts on late amid the olds,S9+30/45 into UTwente. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 9750.019-, Sun July 6 at 1840, VOT English I`m checking for convenience even earlier than the 2030, 2200 or 0300 broadcasts. VG S9+30/45 into UTwente, ending the olds called news, music. 1846-1853 TPOTFP = `The Pulse of Turkish Foreign Policy`, music. 1904 `Letterbox` as Cemre is talking about forest fires. `Sports Panorama` on Weds is taking a break until second week of August as there is little sports news to report until then. Only a few letters this week, due to holidays? So L`box will be shorter than usual [?not]. 1) Ricky Hein, South Dakota, still pestering them about status of 11785 and 7275 frequencies which he does not hear well. She repeats what she got before from the CE at Emirler: ground is just becoming suitable for repair work on antenna A41 and another one during June, so already? 2) Algeria, glad to learn about Turkey. 3) Port Albernie BC, again. 4) Mohammed --, Malaysia, again. 5) Jayanta Chakraborty, India, again, who listens to 7275 the NAm frequency, report of 30 June which was Cemre`s birthday. 6) Spain, that`s all. 1920 theme, then other music and I tune out. Once again I don`t hear any problems with those frequencies *if* they are on the air at all. Week after week, we hear mostly from the same handful of listeners over and over. This really does not bode well for VOT`s audience reach (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, July 6 at 2204 check, VOT not off the air, S9+20/35 into UTwente, but I already heard `Letterbox` on the 1830 broadcast on 9750 (Glenn Hauser, OK, WOR)

** TURKEY. 11785, July 7 at 2200, 2208 chex, NO signal direct from VOT English to N America; nor even unto UTwente at 2230, nor accidentalternate 9875. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785, July 8 at 2238 into UTwente, NO signal again from VOT English for N America; nor on accidentalternate 9875. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, July 9 at 2200, VOT English not off the air, VG S9+50 into UTwente, pretending to open the 1230 on 17620; something`s always awry at Ankara. 2215 long travelog feature about touring Istanbul. By finish at 2227 it`s 11785.005+. 2250 ``always-by-your-side`` promo. 2251 s/off of 1230 on 17620, awry. 2252 IS to 2253.6* (Glenn Hauser, OK, WOR)

** U K. 11955-11960-11965 DRM, July 6 at *0304, Woofferton cuts on late in attempt to make-good the disaster July 2 of the Canada Day special by `Pop Shop Radio` which did not come on until 0333. See my report that date under CANADA [non]. I`m now listening via Maryland SDR. I think the carrier was on earlier, but nothing heard yet, S7/S9, 11.64 kbps as before. The broad DRM signal looks fine on the waterfall, no breaks, but to the ear there are soon dropouts, pinging sounds. At first he mentions Port Arthur, Ont. 0305 singing ID for some other station, Anne Murray song. Unfortunately, Tony talks over the music which makes it harder to understand him. Pop/rock DJs think that`s the cool thing to do, while we classical DJs avoid disrupting

the music. 0309 Rock `n` Roll Man - or Band?, Winnipeg. 0312 Wpg SID for Radio 58? 0315 now dropouts are getting worse. 0315 a bit of French by Tony. 0325 CKLW? ID. I give up by 0333 when I heard it OK last time (Glenn Hauser, OK, WOR)

** U S A. 11930, Fri July 4 at 2133, Greenville has reactivated another R. Martí frequency, VG on the ATS-909 portable with clipon, // 11860 but no 13605. Also at 2148 on the two 11s only, not 9565 tho may have been on at some point. By 2204 all are off, presumably until Monday morning, unless they are expanding incrementally. Tnx to tip from Marshall Reel, Maryland, WOR iogroup of 11860, 11930 and 13605 at 1955 (Glenn Hauser, OK, WOR)

** U S A. 11930 S5 & 11860 JBA, July 7 at 1450, Spanish from R. Martí resuming on this Monday, and shortly also 13605 at S6 in Spanish. No sign of jamming yet. Three transmitters restored in Grimesland; why not more VOA at other hours? (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2301 monitoring: confirmed UT Thursday July 3 at 0130 on WRMI 5010, S9+10/20 into Lima SDR (which times out in only 5 minutes); as Bonaire is offline like most of the time.

Also confirmed Thursday July 3 at 1630.6 on SW Radio, Germany, 6160.000+, S8/S9 into UTwente.

WORLD OF RADIO 2302 contents: Afghanistan non, Azerbaijan, Belarus?, (Belgium non), Canada and non, Cuba and non, Finland, Germany, Guam, India, Indonesia and non, Korea North & South non, (Kuwait), Luxembourg, Myanmar, Netherlands, New Zealand, Nigeria, (Palau), (Russia), Solomon Islands, South Carolina non, (Switzerland), (Taiwan), (Tajikistan), Tanzania, (UK), USA, Vanuatu; WorldRadioHistory.com; propagation outlook - (countries mentioned along with others not in order)

WOR 2302 available from 0101 UT Friday July 4:
(mp3 stream) https://www.w4uvh.net/wor2302.m3u
(mp3 download) https://www.w4uvh.net/wor2302.mp3
Or via http://www.worldofradio.com/audiomid.html
Also linx to podcast services.
Full schedule: http://www.worldofradio.com/radioskd.html

1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2302 monitoring: confirmed UT Saturday July 5 at 0300 on WTWW, 5085 reactivated, VG direct. As before, the automation seems to be set to start by saying ``Ancient Word Radio ministry...`` before changing to my own introduxion. No connexion, I assure.

Also confirmed Saturday July 5 at 1441 the 1430 on SW Gold Radio, Germany, 6160, S4/S5 into SDXL Turku, Finland, SDR, after Carlow, Ireland not getting it, DL7APJ offline, and UTwente marred by tone louder than me.

Also confirmed Saturday July 5 at 1600 on WRN North America stream.

Also confirmed Saturday July 5 at 1736 the 1730 on SW Gold Radio, Germany, 6160.000-, S9/+15 and 3975.001+, S9/+5 with tone QRM into UTwente.

Also confirmed Saturday July 5 after 1930 on WRN North America stream.

Also confirmed Saturday July 5 at 1932 about 7 minutes into so started about 1925 on WA0RCR, 1860 AM, MO; daytime of the 3 SDRs near St Louis, audible only on the K9VD one, S5 and noisy.

Also confirmed Saturday July 5 at 2017 the 2000 WRN Europe stream.

Also confirmed Saturday July 5 at 2100 new broadcast on WRMI 9395, S9+30 into Georgia SDR. Next:

2230 UT Saturday WRMI 15770 to NE; and 7730??;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323v;
2100 UT Sunday WRMI 15770 to NE [NEW; and 7730?];
2130 UT Sunday SW Radio, Germany 3975 & 6160;

0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2302 monitoring: confirmed Saturday July 5 at 2230 on WRMI 15770, JBA direct but S9 into Maryland SDR. This time I make a point of checking 7730 also shown on WRMI skedgrid for WOR. NO! JBA direct but it`s SMTV before and after 2230 into Georgia SDR.

Confirmed UT Sunday July 6 at 0331 about 7 minutes into, so the 0315v started circa 0324 on WA0RCR, 1860 AM, MO, S9+10 but noisy into N9AZZ IL remote.

Confirmed Sunday July 6 at 1912 the 1900 on IRRS SW via AM Italia, 1323: NO signal into UTwente, nor two Parma SDRs, but lots of storm noise. Then I find that the closest and favorite SDR, Noale, is back on! No 1323, but alternate frequency *is* on, 918 kHz and VG S9+20 atop storm noise; displays -15.8 Hz low, but have not checked calibration. Other alt. 207 kHz LW not on. IW3HBX. Next:

2100 UT Sunday WRMI 15770 to NE [NEW];
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v - or 918 kHz;
2330 UT Tuesday WRMI 9395 to NNW;

1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2302 monitoring: confirmed Sunday July 6 at 2100 on WRMI 15770, S7 into Maryland SDR, and not on 7730.

Also confirmed Sunday July 6 at 2156 the 2130 on SW Gold Radio, Germany, 6160.001+ S9+10/20 and 3975.002+ S7/9+20 into UTwente.

Also confirmed Sunday July 6 at 2336 the 2330 on WRMI 9455, S7/9+10 into Georgia SDR.

Also confirmed UT Monday July 7 at 0030 on WRMI 7780, S9+20 into south TX SDR.

Not confirmed UT Monday July 7 at 0300 on Area 51 webcast: JL gotta go at that time but 5130 at S9 into NH SDR & webcast continued with music until 5130 s/off at 0305-0306*; but still music on stream including `Pinball Wizard` at 0311, more rock music past 0319. Gave up rechecking at 0344. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v and/or 918 kHz;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2302 monitoring: ``hi, hearing WOR Sunday from 2130 on 6160 at good reception on my Tecsun pl-660 + long wire outdoor, Jon Collins, Birmingham UK``

Confirmed Monday July 7 at 2030 on SW Gold Radio, Germany, 6160.001- S9/+10 and 3975.001+, also S9/+10 into UTwente.

Two more new times for WOR have appeared on the WRMI skedgrid for System G:
Sun 2300 on 9395 to NNW [2330 blank, a repeat?];
Wed 0030 on 9395 to NNW; Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v and/or 918 kHz;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW, to be confirmed];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2302 monitoring: confirmed UT Tuesday July 8 at 0330 on WRMI 7780, S9+35 into S Texas SDR.

Also confirmed Tuesday July 8 at 1300 on WRMI 9955, S9/+10 direct.

Also confirmed Tuesday July 8 at 1407 on WRMI 9955, JBA direct, but at 1423 into Georgia SDR, S9+33.

Missed checking Tuesday July 8 at 2000 on AM Italia 1323 and/or 918 kHz; anyone hear it on either or both? Next:

2330 UT Tuesday SW Radio, Germany 3975;
2330 UT Tuesday WRMI 9395 to NNW;
0030 UT Wednesday WRMI 9395 to NNW [NEW, to be confirmed];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2302 monitoring: ``From: Richard Lemke, Alberta, Canada, the desk of Richard’s listening Post, Radio: JRC NRD-535 HF (30 years of service), antenna: random long wires in the trees. World of Radio #2302, WRMI:
9455 kHz, Static QRN, S7 signal, 2321, 2340, 2345, 2357 (45442), 2358, July 6 UTC 2025 [Sun]
9395 kHz, empty (35442), below S5, 2359, July 8 UTC 2025 [Tue] (Lemke, Richard -AB)``

Confirmed Tuesday July 8 at 2330 on SW Gold Radio, Germany, 3975.002+, S9/+10 into UTwente.

Also confirmed Tuesday July 8 at 2330 on WRMI 9395, S9+10/35 into Georgia SDR.

Also confirmed new time of UT Wednesday July 9 at 0030 on WRMI 9395.

Also confirmed Wednesday July 9 at 1931 on SW Gold Radio, Germany, 6160, VG into UTwente by recording, presumably also on 3975.

Also confirmed Wednesday July 9 at 2120 the 2100 on WBCQ 7490 -67 Hz = 7489.933, VP S5/7 and noisy into Maryland SDR; less QRM by USB tuning.

I see on the WRMI skedgrid, yet another new time, to be confirmed, Wed 2330 on WRMI 9395. Yes! There I am, July 9 at 2339 check on WRMI 9395, S9+10/20 direct . Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Peter Robinson, Preston UK, for a very generous contribution via PayPal, not necessarily in US funds, to woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. WTWW: I was about to send this to George McClintock, times in CDT, when he phoned so we discussed it. Says 5920 running only 30 kW until he can check out some stuff:

``George, Well, I`m hoping 5085 will be on for WOR 2302 at 10 pm - 9930 finally went off at 8:37, but nothing yet on 5920 or 5085 by

8:42. O, 5920 on at 8:43 - but then it`s pretty weak, something else?
O, off at 8:45? 5085 on at 8:44 - Good, here we go, Glenn``

I should add that on 9930 at 0129 we heard both its change to 5920
announcement, and then the 5920 s/off, altho it wasn`t on yet (Glenn
Hauser, OK, WOR)

** U S A. 5920, July 5 at 0258, this WTWW is back on and sounding like
full power rather than earlier; and 5085 also on possiblizing World of
Radio a biminute later. George tells me when TOMBS goes away, he will
restore Pastor Pete Peters, who sounds less deceased than BS. He`s
also set up a studio to produce his own music show of old favorites
(Glenn Hauser, OK, WOR)

** U S A. 5085, July 8 at 0214, this WTWW is off again, problem? But
5920 is on still with TOMBS music // not synch with 7489.9 WBCQ (Glenn
Hauser, OK, WOR)

** U S A. WTWW: George McClintock informs me July 9: Overcomer
Ministry has agreed to stay on WTWW, 24 hours, presumably 9930/5920,
at 70 kW. This may be the only SW coverage. Various repairs continue,
which hopefully will make 5085 and daytime 9475 more reliable; and he
says WTWW is open to secular shows such as music buying time
(Glenn Hauser, OK, WOR)

** U S A. 9455, July 4 at 0348 WRMI still with TOMBS here, S9+35/40.
The System K grid shows this hour 03-04 M-F is BLANK! Ashamed? Also //
but not synch on much weaker S9+5/15 via WBCQ 7489.9 (Glenn Hauser,
OK, WOR)

** U S A. 5800, 5850, 5950, 7780, 9455, July 4 at 0455, `Classic
Redneck Radio`` on all these WRMIs (Glenn Hauser, OK, WOR)

** U S A. 9455, Mon July 7 at 2157, WRMI-11 with IS & ID loop,
programming to start at top of hour, S9+20 direct; 2206 check, Yahwah
stuff - says there are lies in the KJV but they use it anyway.
`Classic Redneck Radio`, of course during the first hour at least
(Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs into NH remote, July 4 at 2356:
3265 OFF. IS & ID loop on both 5130 -85 Hz = 5129.915 at S9/+5, and
6160 -73 Hz = 6159.927. 7490 - 77 Hz = 7489.923, FKB at S8/9+10. 9330
*2358 with IS & ID, then overcome by WLC theme music, S9/+10,
presumably about to join 7490 // 5130. But `AAAWWW` introduced as
originally aired May 30, 2025, ``let`s get flushing``, as I already
reported. Never mind (Glenn Hauser, OK, WOR)

** U S A. 9330, July 8 at 0151, no signal at all from WLCR/WBCQ.
What`s wrong? Must be off (Glenn Hauser, OK, WOR)

** U S A. WBCQ: Hal Turner, the far-right talker on WBCQ has just
belatedly posted on website July 7 that he`s on 5130 instead of 6160:
https://halturnerradioshow.com/index.php/news-selections/world-news/temporary-frequency-
change
And guess what, that is NOT the antenna HT is on, but World`s Last
Chance, only for the SuperStition on 9330. Don`t you believe Hal
Turner. Compare to this view of it;
https://www.radioworld.com/global/wbcq-relies-on-high-power-shortwave-antenna

I already noticed the change two weeks ago:
``U S A. 5129.9, June 24 at 0126 JBA signal vs HSNL must be WBCQ,
which per own websked is not on the air at all on UT Tuesday!! At 0158
I check Maryland SDR, and hear Hal Turner wrapping up with a
gold/silver commercial, whilst 6160- is off the air, but // 7490-. But
by 0200, 5130- is playing the generic WBCQ s/off. Evidently Turner has

been moved from 6160 to 5130. Why doesn`t the sked show this correctly? Not that I care to hear him anywhere`` (Glenn Hauser, OK, WOR)

** U S A. 4840, July 5 at 0638, this WWCR-3 is OFF. But at 0645 recheck it`s ON again, with jazz, presumably VORW as scheduled (Glenn Hauser, OK, WOR)

** U S A. (12160), Sat July 5 at 1700, WWCR with `Talking Machine Show` on webcast: but lately have been inserting a one-minute commercial before stream plays, very annoying; even more so today, when one link kept repeating the commercial until I switched to a different one (Glenn Hauser, OK, WOR)

** U S A. 12050, July 9 at 1435, no signal direct from WEWN Spanish RCM; nor at 1538, 1600 into Lima SDR, which is getting Martí. Nor at 2116 into Maryland SDR. AAMOF, haven`t noticed 12050 in some time, random daytime and evening tunebys. Totally off? Had heard it near start and stop of registered span 1400-0600. Now would have no CCI, as Ndarason quit 12050, and nothing else scheduled (Glenn Hauser, OK, WOR)

** U S A [and non]. Huge sporadic E FM DX opening July 4:
see CANADA [and non]

** VANUATU. 9960, July 3 at 0620, no signal from R. Vanuatu: apparently changed frequency schedule again. Alternatives would be 3945, 5040, 7260, no longer harmonix on 7890, 11835. Later: Ron Howard found out that a power outage knocked it off; when that happens, has to be restarted manually after some delay (Glenn Hauser, OK, WORLD OF RADIO 2302)

** VANUATU. 9960, July 7 at 1452, JBA carrier, so R. Vanuatu at this unusual hour? EiBi shows nothing else on 9960 but RV at 0659-1105 & 1830-0659; Aoki breaks into three segments: 1959-2158, 2159-0658, 0958-1102. They are very flexible (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1280.165, July 4 at 0440, but not at 0453, JBA carrier hetting 1280.0 stations. Later I see a match only 3 Hz away in MW offsets!:
``1280,168 CHL Radio La Palabra (Osorno) [1280.143-] 2024-08-25``
WRTH shows CD128, 10/1 kW (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1530 kHz, July 4 at 0435 UT, S9 dead air dominates, can`t get a fix on it; could it be WCKY? Some audio JBA underneath. Lots of daytimers listed including KXTD Wagoner OK 5 kW (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236.0, July 7 at 1455, mystery open carrier ending in -6 at S4. Also stronger 9936.0 July 7 circa 0530/0600 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9340.4 approx., July 3 at 0618, RTTY instead of open carrier, so now we know most of the time the carrier is just an idle RTTY sender (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11965, July 6 at 2155 some very strong talk when I brought up a remote, Georgia? still tuned to 11960 for yesterday`s DRM, with huge splash from above, but off in a few sex. Worthy of MWV African Pathways Radio, but is sked an hour earlier at 2000-2100, nothing later (Glenn Hauser, OK, WOR)

TIPS FOR RATIONAL LIVING

A national reckoning is coming for America | Opinion by Robert Reich
